TERRAZZO TILE

We are one of the trusted suppliers in Oman that are able to offer incomparable workmanship, superior quality of raw materials, and fully customized terrazzo design. The enduring beauty and extreme durability of terrazzo mean that it enjoys a current revival in both commercial and residential applications. Terrazzo floor tiles are perfect if you are looking to add a touch of elegance to your home whilst offering unbeatable quality and value for money. Choose from a palette of rich earth tones and welcoming neutrals and create a space that's uniquely you.

LONGEVITY

Our terrazzo tiles stand the test of time and will last centuries. Over years buildings can go through several floor replacements in its lifetime, but with terrazzo tile, it eliminates the need to replace the floor finish.

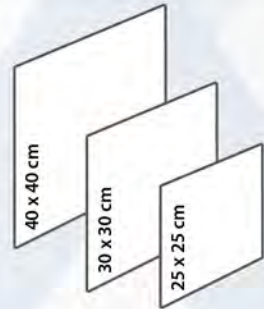

LOW COST

Terrazzo is among the lowest life-cycle costs in flooring tile, when you factor the one-time terrazzo installation cost combined with low occurrence in replacement costs and the energy savings from its insulation.

ENVIRONMENT FRIENDLY

Terrazzo tiles consist of rapidly renewable materials and contains no volatile organic compounds which guarantees better indoor air quality. It is also non-porous making it antimicrobial, resulting in a healthier home or business.

DESIGN TERRAZZO

Our design tiles come in a wide range of colors, textures, and patterns allowing our clients to create the design that is perfect for their unique project. And because ATTF only uses the best quality raw materials, clients can be assured that fading of designs would be minimal. When compared to interlock tiles, design tiles are a much better choice for your outdoor tiling needs. Design tiles are recommended for walk-ways, courtyards, pool areas and private driveways.

NON-SLIP SURFACE & LOW MAINTENANCE

Design terrazzo tiles are also water and heat resistant and easy to cut, making them easy to work with and ideal to use not just as flooring, but in a variety of applications.

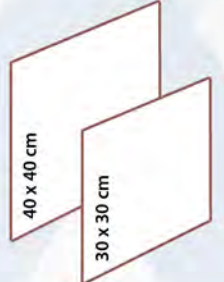

LONG LASTING COLOR & SHINE

We utilize high quality materials including terrazzo chips to ensure the longevity of the color and gloss which surpasses that of interlock tile.

HIGHLY DURABLE

Design tiles are installed in cement thus resulting in tiles that have a heavier weight-load and won't sink like sand based interlock tiles.

EXPOSED AGGREGATE

Our exposed aggregate tiles are made from high-quality natural materials, mainly sourced from within Oman. We offer a wide range of products with distinct colors and patterns, also the possibility to customize your tiles. Exposed aggregate offers many functional and aesthetic benefits making it the perfect choice for pool areas, gardens, and walkways.

SLIP-RESISTANT, PERFECT FOR POOL AREAS

ATTF exposed aggregate tiles give a textured finish by revealing the aggregates in the surface of the concrete, adding beauty, practicality, and value to your home. The materials are carefully selected with high abrasion resistance and is best solution for large commercial areas subjected to high foot traffic.

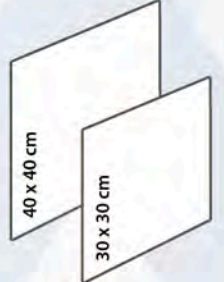

ABLE TO WITHSTAND HARSH WEATHER CONDITIONS

When it comes to combining beauty with functionality, no product outshines our exposed aggregate tiles. They last far longer under rough climatic conditions and can be customized with your ideas to provide with something you won't find anywhere else.

ENVIRONMENTALLY FRIENDLY & EASY TO KEEP CLEAN

Designers, architects, and homeowners know alike that in addition to the care we take crafting our products, we will make their inspirations come alive by customizing our tile to their designs and color choices! Little maintenance is required, other than sealing and occasional cleaning.

SPECIAL TERRAZZO

Our fine selections of natural stones aggregates mixed with other fine materials such as quartz, granite aggregates give stunning finishes for your space. Customized design of tiles is our specialty, especially for hotels, airports, hospitals, stadiums, and universities. ATTF proposes tiles that combine high technical performance to a modern and functional design, and that satisfy all the contemporary architecture requirements. The wide versatility in the choice of sizes, colors, finishes extend the perspectives of interior design projects.

HIGH LONGEVITY

Terrazzo tiles are known to have high compressive strength, it can withstand heavy amounts of pressure caused by foot traffic or heavy machinery. The durability of the material allows the surface to last for years with minimal maintenance besides a daily routine cleaning.

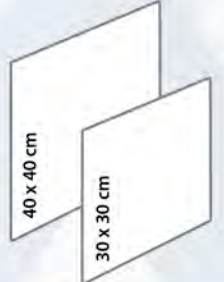

DISTINCT COLORS & DESIGNS

These are available in distinctive colors and designs that add aesthetic appeal to the area where it is installed. Our Terrazzo tiles give a contemporary interpretation of the timeless look of stone, available in different color nuances, expertly blended to give a touch of elegance to any environment.

ENVIRONMENT FRIENDLY

Special Terrazzo tiles consist of rapidly renewable materials and contains no volatile organic compounds which guarantees better indoor air quality. It is also non-porous making it antimicrobial, resulting in a healthier home or business.

PAVING TILE

Paving tiles can be both attractive and functional. They are very popular and preferred to interlock tiles as they are easier to walk on, extremely durable, and simple to maintain. Produced with local materials ATTF produces their paving tiles using raw materials from Oman and pigments sourced from Europe. Our paving tiles will help you transform your garden and enjoy those long summer evenings outdoors with family and friends. Create stunning patios, outdoor seating areas, and pathways with our range of paving tiles.

EXTREMELY DURABLE

ATTF's paving tiles are more durable, they can withstand heavy weights making them a better option than interlock tile. Also they can withstand the harshest of weather conditions and still manage to maintain their natural beauty.

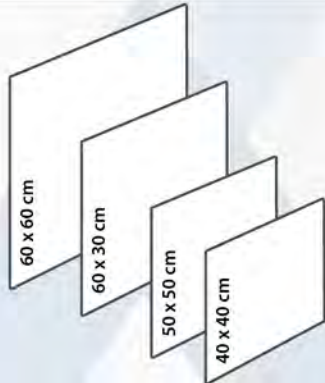

ECONOMICAL

Paving tiles have a much better life cycle cost than interlock tile. They last longer, stay level and maintain their color that reduces the need of replacement. If they ever become damaged or stained, it is simply a matter of lifting off the damaged paver and replacing it with a new one.

CUSTOMIZABLE

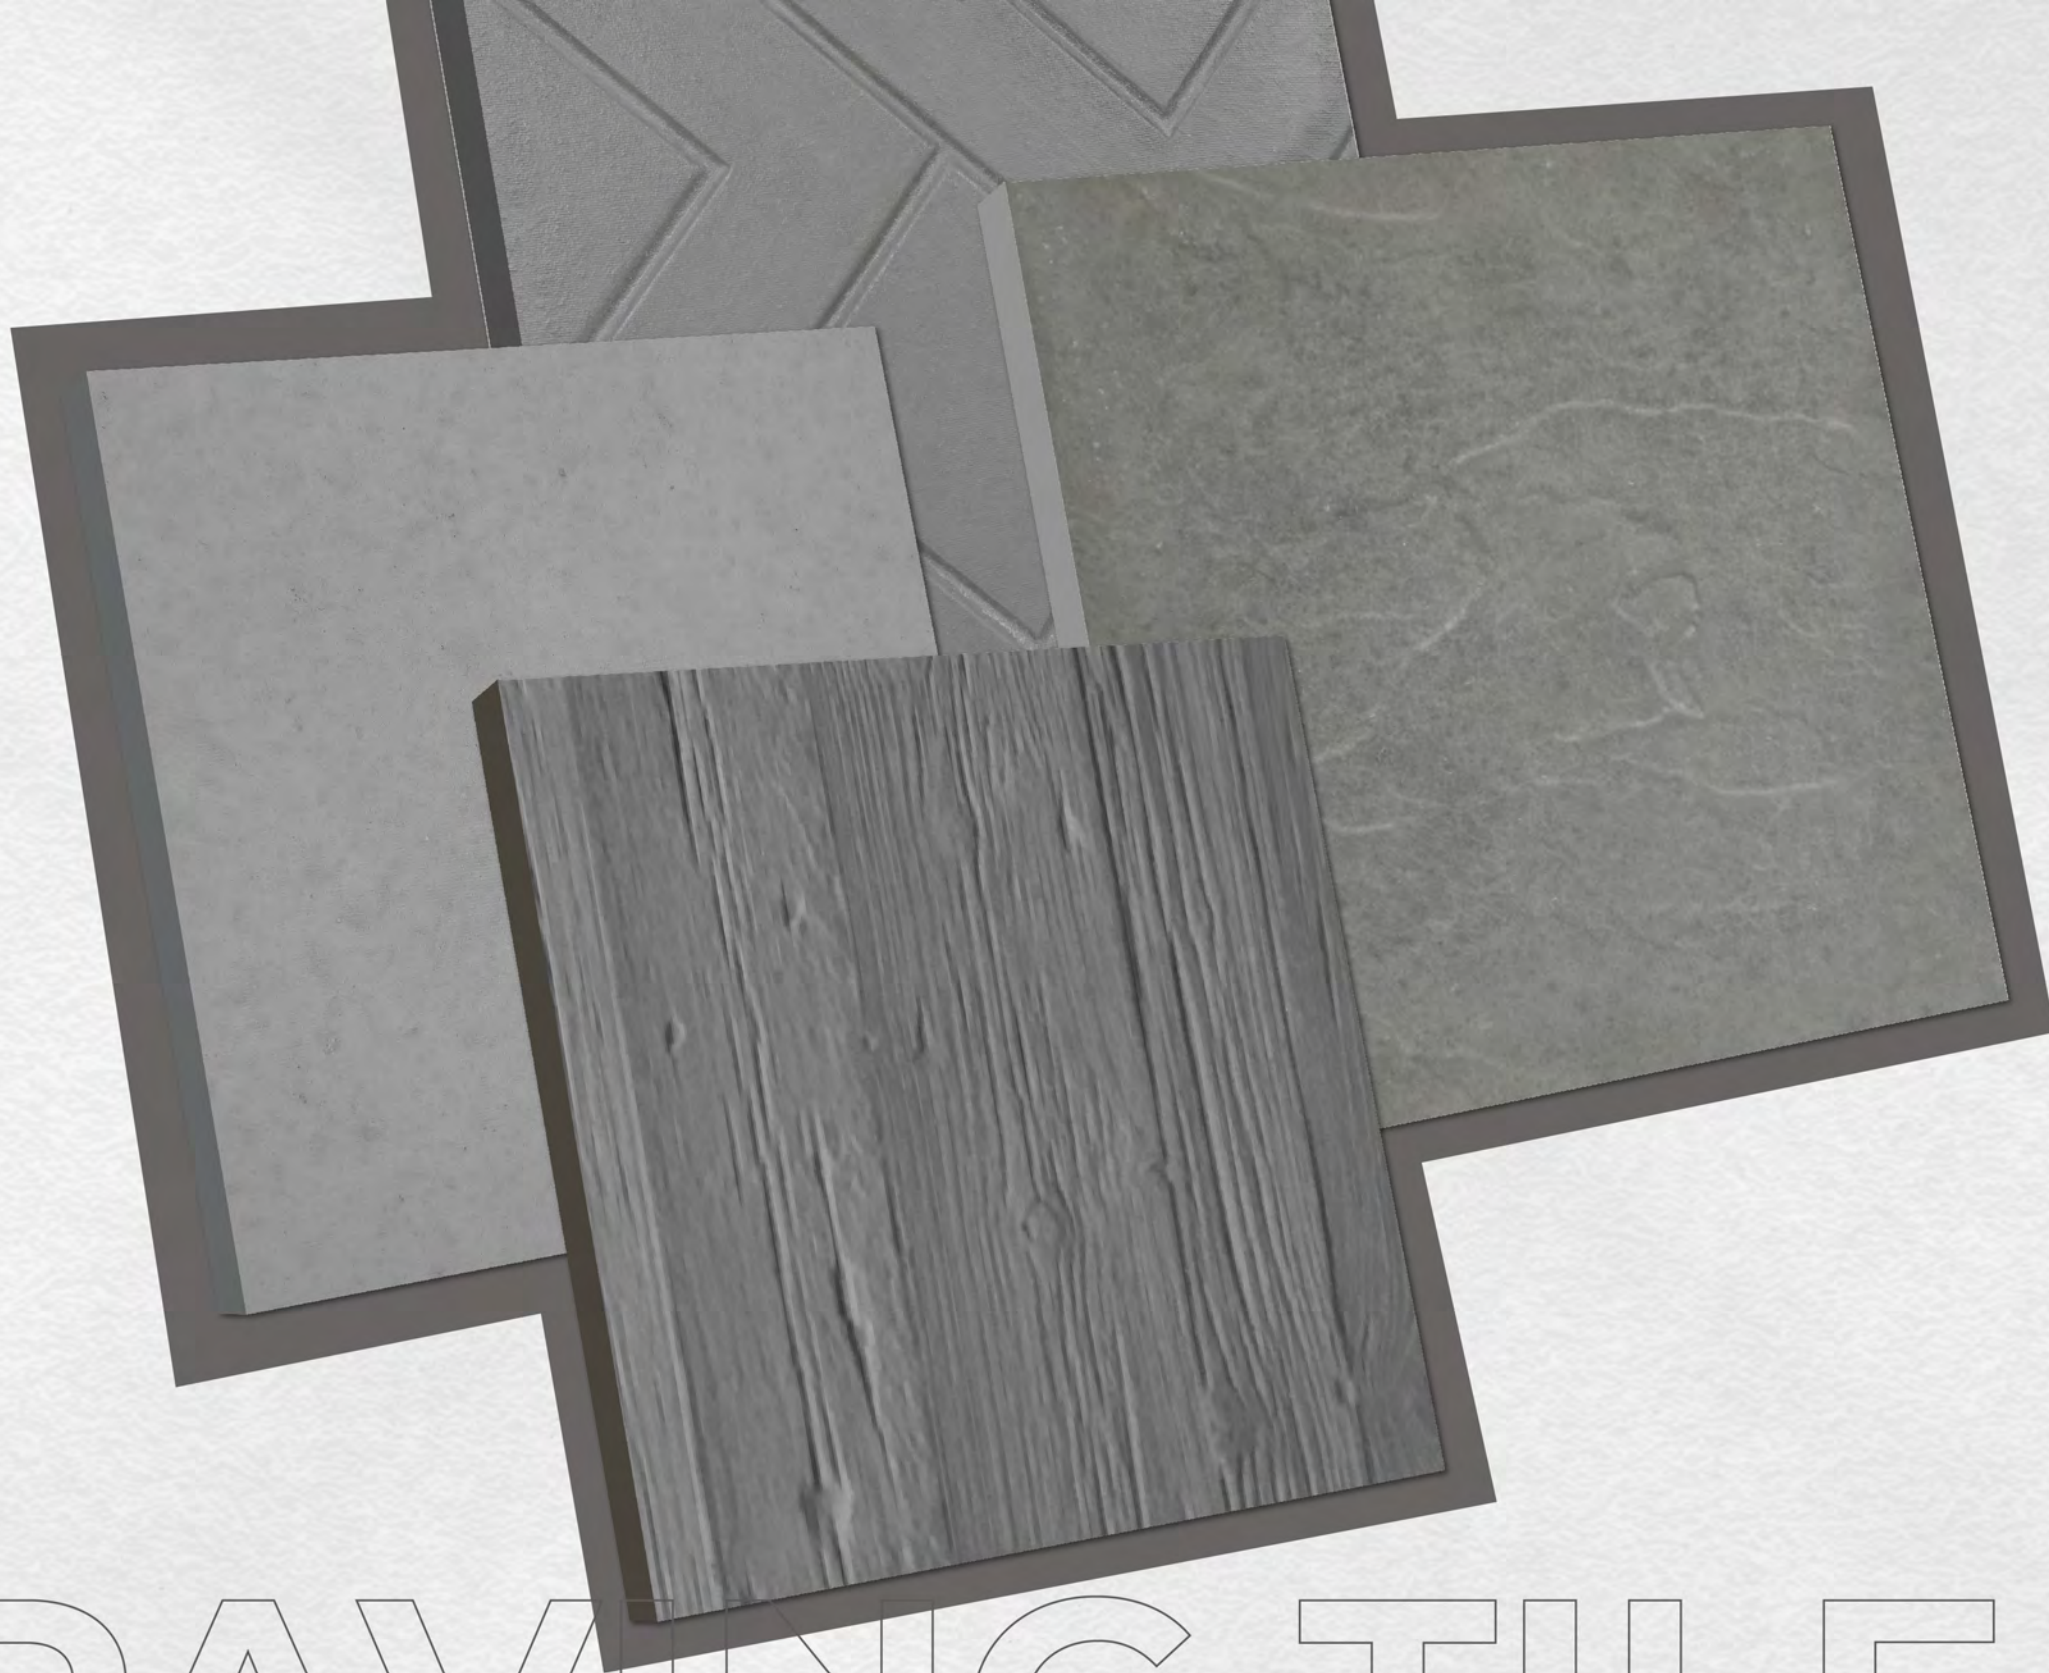

ATTF offers paving tiles in a large variety of sizes, vibrant colors and designs creating an extra spark to your perfect space. The design opportunities possible with them are limitless and they are known to bring a certain beauty and elegance to your property.

DESIGN CEMENT TILE

ATTF Design Cement Tiles are one of the unique products in the market and are manufactured with the most ideal mixture of the finest Marble Powder, Cement & Sand etc. Whether plain or patterned, each cement tile is meticulously crafted as part of the mix to strengthen it and create a beautiful, raw finish. Our unique design tiles are highly compressed and hydraulically pressed that exhibit premium aesthetic look for exterior wet areas/outdoor spaces such as Walk Ways, Garden, and Roof etc. You can choose between traditional or modern patterns and colors, to create the cement tiles adapted to your project which are available in smooth, rough and Terrazo finish.

DURABLE

The hard-wearing nature and practical qualities of ATTF cement tiles make them a great choice for almost anywhere in or outside your home. They are well known for heat and UV resistant, mainly the White Cement Tile- for roof.

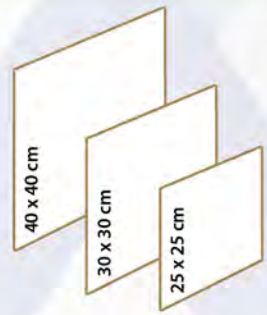

SLIPPERY RESISTANCE

ATTF Design Cement Tiles are low maintenance and long lasting, provide a non-slip surface for high-traffic areas such as hallways and kitchens. Once they have been sealed, cement tiles are totally waterproof and can be used in bathrooms and wet rooms as well as outdoors. The low water absorption capability compared to Interlock tile make it more cost effective on a longer run.

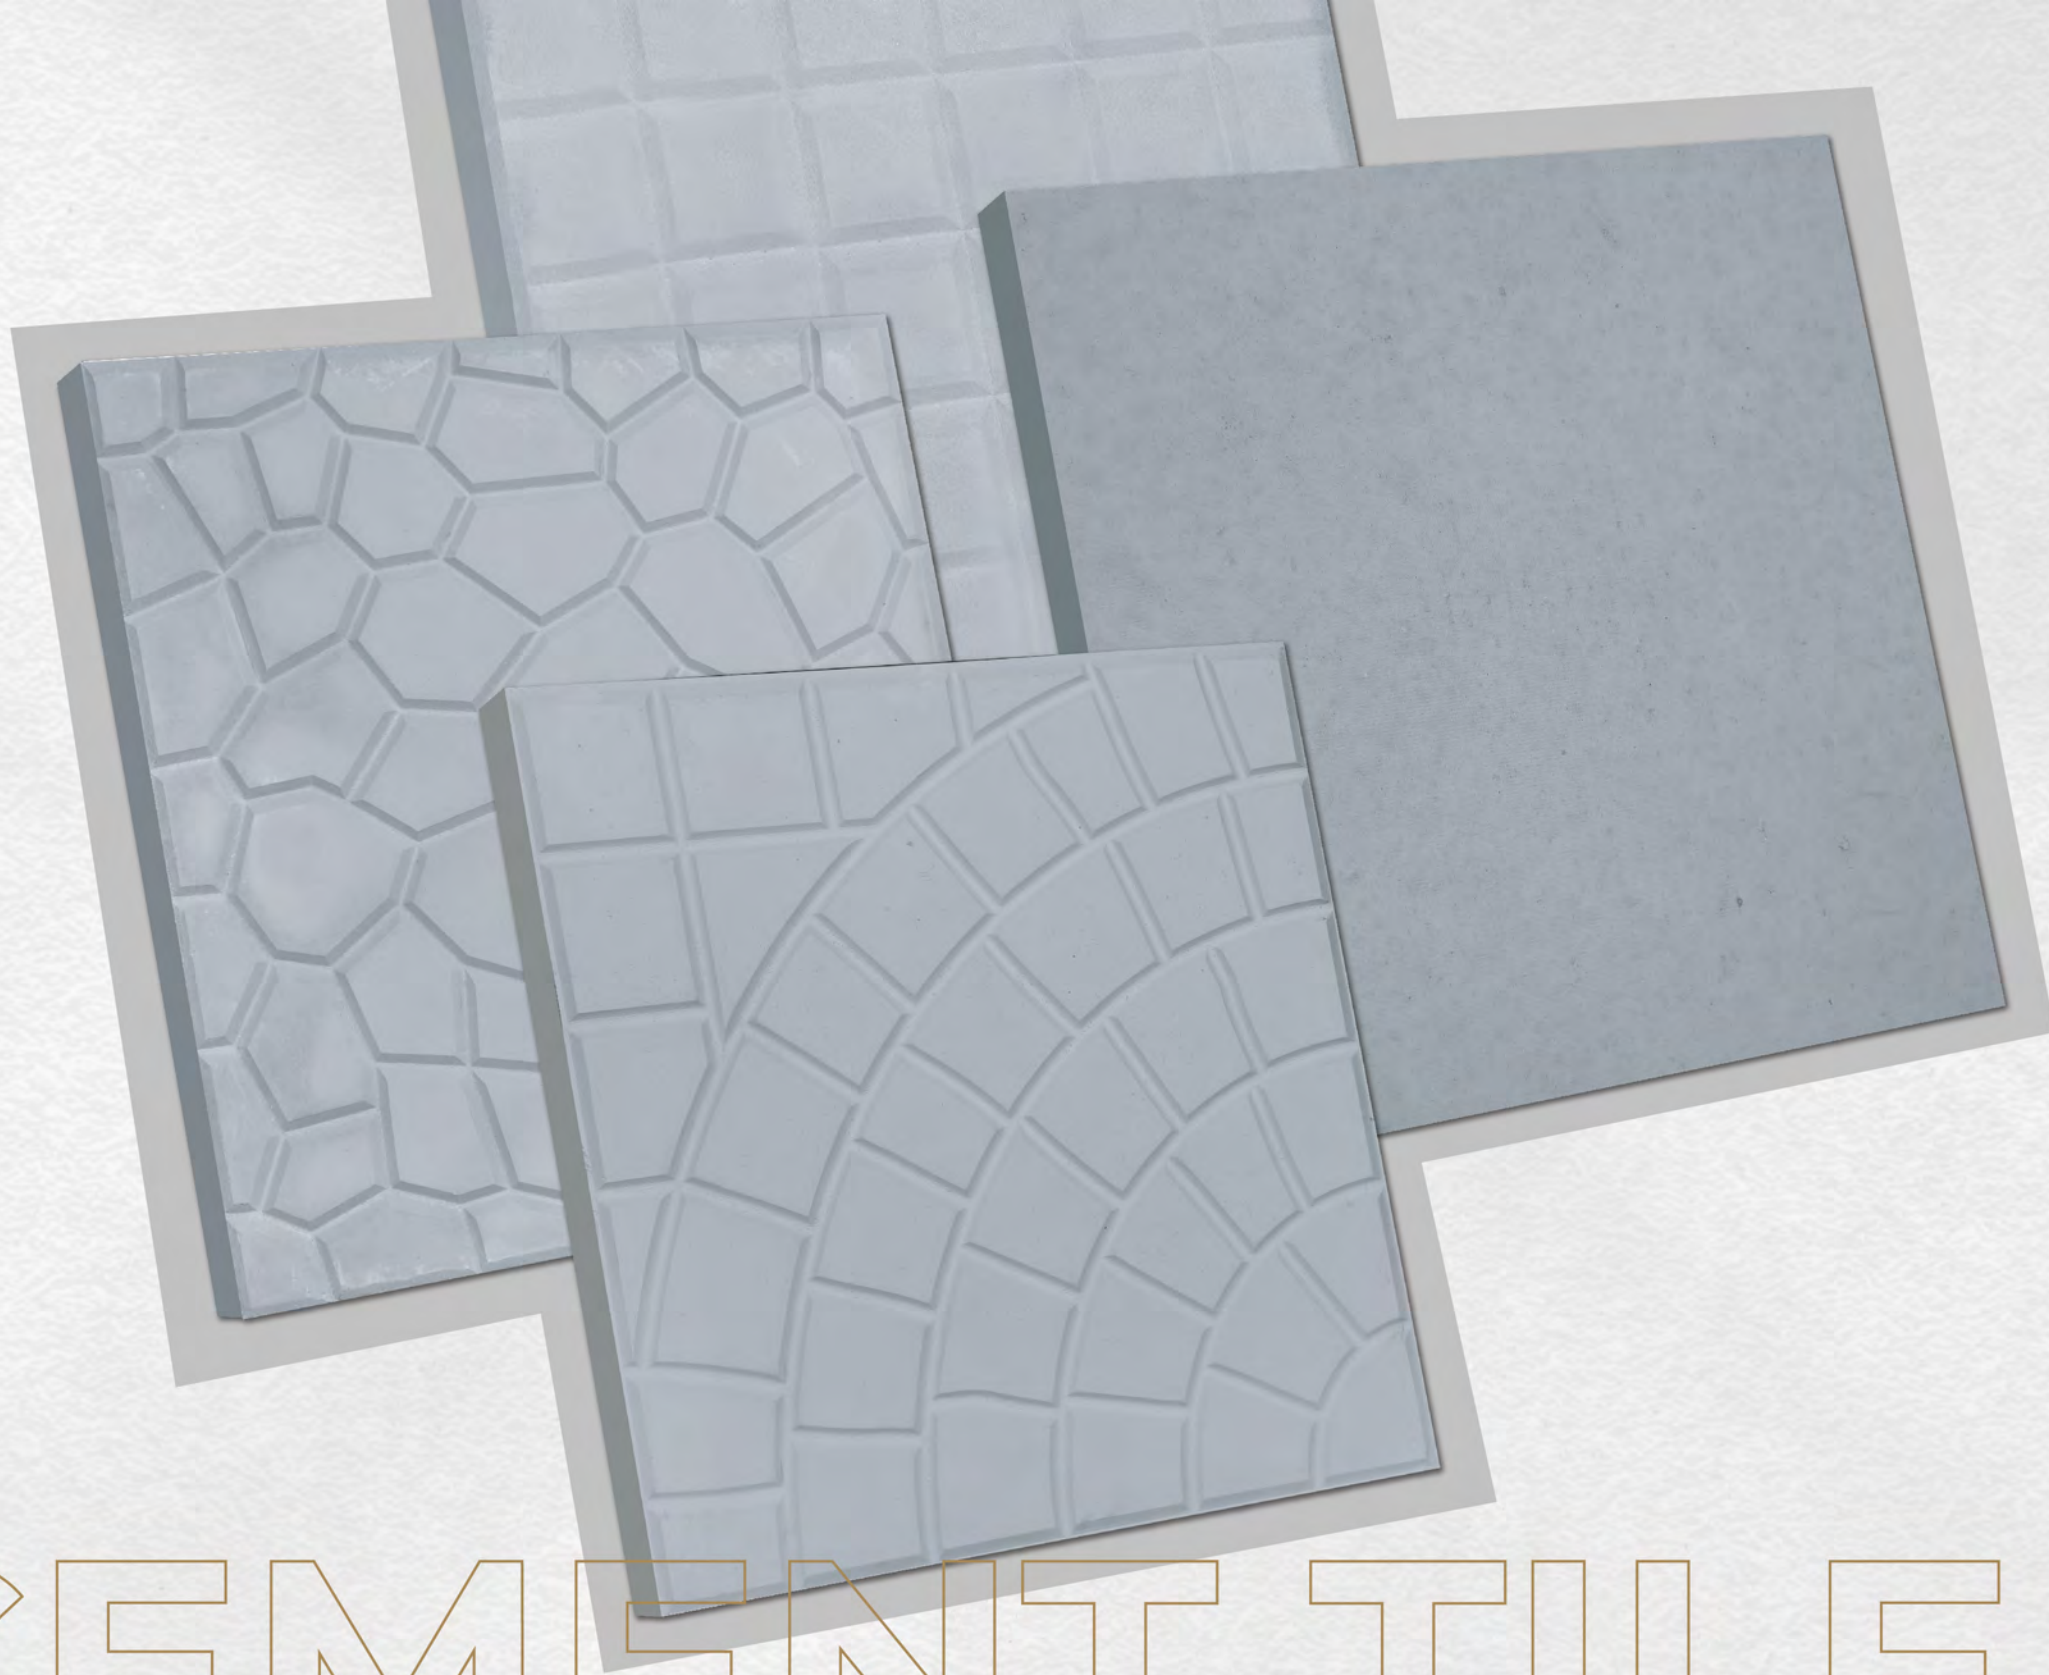

WIDE RANGE OF COLOR & TEXTURES

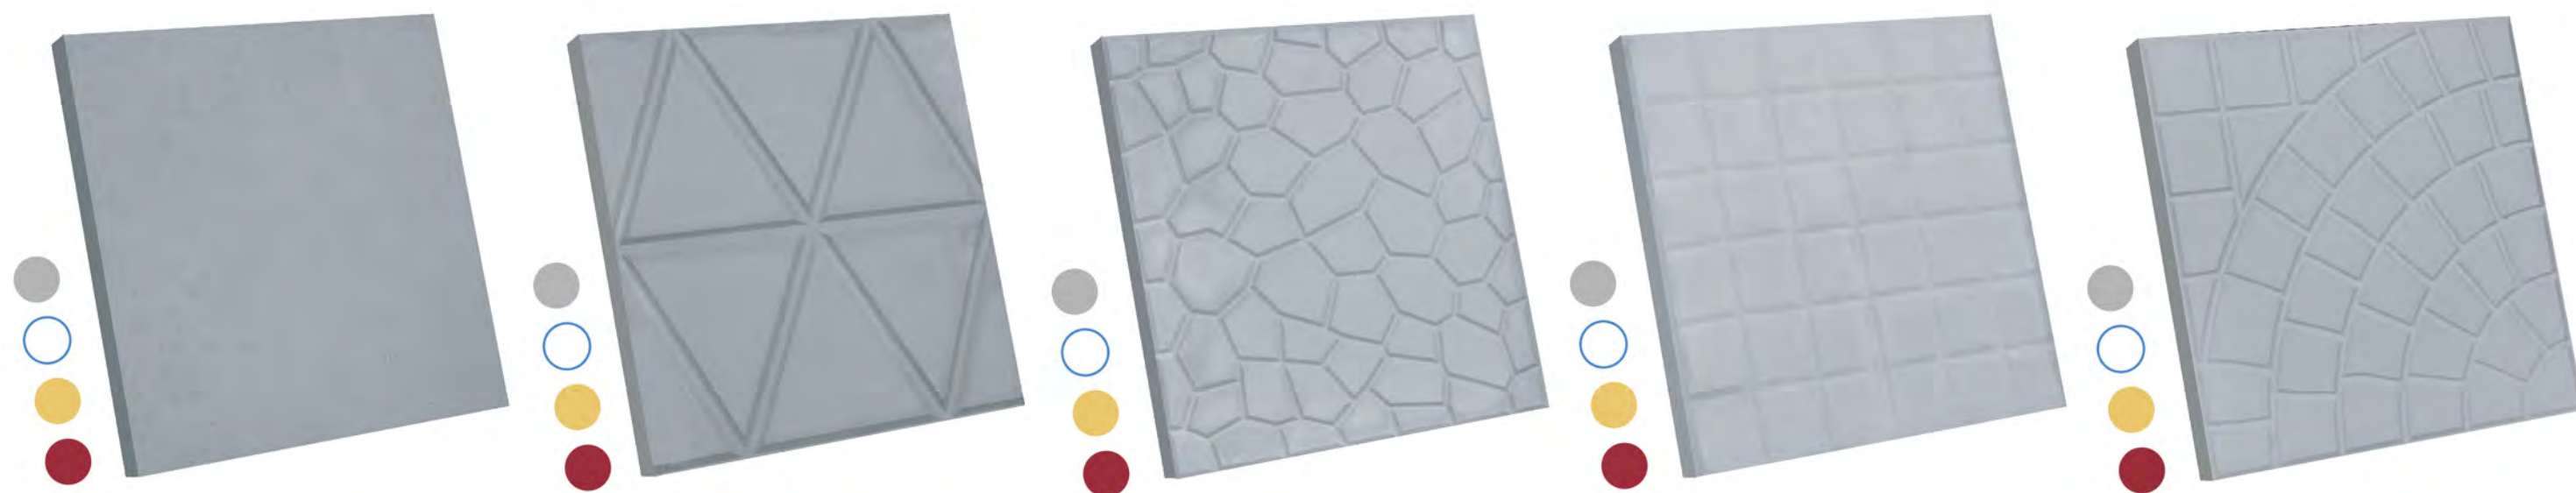

The slip resistant and incredibly hard wearing, ATTF Design Cement Tiles are a natural choice for floors. You can create simple schemes with our neutrals and plain colors or go all-out with intricate designs or bold patterns.

SPECIAL PRODUCTS

What's more? We have extended our product range with specialized products such tables, counter top, kitchen tops, kitchen sink, cladding for fountains, barbeque table & pit.

To enhance the look of your environment and provide an enjoyable outdoor spot, we customize the planters and benches as per your requirement. They are available in both concrete and Terrazzo Finish making it durable and long-lasting.

TREAD & RISER

Choosing suitable tiles for stairs is not as easy as it seems. Be assured our staircase tiles not only add to the aesthetic appeal of the space but also should be highly functional and safe. We provide tiles that cover the stairs with durable and tough flooring option so that it fits aesthetically with the overall decor of the surrounding area. They are also capable to bear high load capacity. We offer products that are non-slip, durable, making it suitable for indoor or outdoor use. In addition, our tiles require less maintenance, thus, a simple sweep of a dry or slightly wet cloth on the tiles leave it sparkling clean. It will save a lot of time and effort that goes into keeping stairs looking nice and appealing.
